Changing Trends In The Management Of Gynaecological Cancers

30th November - 2nd December, 2012

Venue: Kokilaben Dhirubhai Ambani Hospital, Mumbai

Welcome

Dear Friends,

It gives us great pleasure to welcome you once again to AGOICON 2012, the XXth Annual Conference of the Association of Gynecological Oncologists of India. This year we meet in Mumbai between the 30th November and the 2nd December 2012.

This year we focus on "Recent Trends in the Management of Gynecological Cancers" as a Conference Theme. The emphasis will be on individualization of treatment with critical assessment of treatment outcomes and quality-of-life emerging as significant considerations.

AGOICON 2012 as conceptualized will be a feast of relevant didactic lectures, symposia, panel discussions and free communications relevant to our main theme. The Conference will be preceded by a Live Pre-Conference Surgical Workshop focusing on Robotic Surgery, the new kid-on-the-block in the surgical armamentarium of our subspecialty. This will be held at the Kokilaben Dhirubai Ambani Hospital on the 30th November. The Conference will be formally inaugurated immediately following the conclusion of this Workshop and the scientific deliberations will take place on the 1st and the 2nd December.

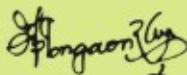

We have organized an impressive lineup of Guest Faculty, International and National who promise to offer appropriate evidence-based insights into some of the most recent advances in the management of gynecological cancers.

We can only hope that each one of you will grace AGOICON 2012 with your presence and give us all an opportunity to meet, interact and evolve as one.
